BELLEVUE FLOWER SHOW AND SPORTS MONDAY

Provided the weather man acts kindly, Bellevue promises big attractions for Monday next, Labor Day.

The sixteenth annual exhibition of the Bellevue and District Horticultural, Industrial and Poultry Society will open in the arena at 1 p.m., and thousands of specimens of local grown flowers, vegetables, etc., will be on display, as well as school art, poultry, etc.

The judges will be as last year, Mr. A. E. Palmer, of the Lethbridge experimental farm, for vegetables; Mr. J. H. Downs, of the same institution, for poultry; Mr. W. R. Reader, of Calgary, for flowers; Mrs. Palmer and Mrs. Kain, of Lethbridge, for the ladies' section; with a judge for school art yet to be appointed.

A ladies' rest room will be provided at the United church.

In addition to the regular prize list, a large number of extra special prizes have been offered.

A series of children's sports will commence at the sports field at 10.30. The larger programme will start with football at 11 a.m. and 1 p.m., followed by a race for men of fifty years and over at 2.15, and general events, such as foot races, jumps, pole vault, etc.

A special event during the afternoon will be George Sutherland, Canada's champion all-round athlete, giving an exhibition of the javelin throw, discus throw, hammer throw, shot put, etc.

A grand dance in the Oddfellows' hall at night will conclude the programme.

TRIBUTE PAID DEAD OFFICERS

In a laudatory statement to the Lethbridge Herald on his past associations with the late Sergeant Joe Blockside and Constable Joe Farrell, Detective Inspector Syd. Wallis, oldest member of the city police force from point of service, and during the absence of Chief Constable T. Nicholls, said:

"I have been intimately associated with Sgt. Blockside since he entered our service on September 27, 1923. His early work was of the best and his promotion to the post of sergeant on February 1, 1928, was well merited. He was a stern disciplinarian and a splendid officer, due to early training in the Imperial Army. He was thoroughly dependable and it will be difficult to fill his place on the force.

Joe Farrell was undoubtedly one of the best all around men on the force,

LOCAL UNDERTAKER PROVIDES NEW FUNERAL EQUIPMENT

In the choice of equipment and dignified service we congratulate Mr. A. E. Ferguson who has always endeavored to make the Funeral Home an institution representative of that which is above the value of monetary consideration.

In another effort to render the finest service possible, Mr. Ferguson has purchased a beautiful Buick hearse. The model is one of the newest designs in Western Canada and equals anything presented in our own provincial cities.

This luxurious funeral coach is built on an eight cylinder Buick chassis, and is upholstered with rich grey mohair. The fittings are made of chromium plated bronze, this tends to enhance the beauty of the design; while the plate glass side panels are bordered with lovely wicker flower trays.

The engineering skill and workmanship on this beautiful coach exemplifies the fact that nothing has been left undone to give the people of the Crows' Nest Pass a service equivalent to that received only in our larger Western cities.

BURRELL - DONOVAN

St. Augustin's chapel was the setting for a quiet wedding on Thursday morning, when Dorothy Mary Donovan, daughter of Mr. and Mrs. James Andrew Donovan, of Macleod, became the bride of James Burrell, son of Mr. and Mrs. Benjamin Burrell, of Blainmore, the Rev. P. G. Wade officiating. Mr. Binnie Burrell, of Blainmore, and Mr. Robert Lawson, of Lethbridge, were in attendance. Mr. and Mrs. Burrell will take up residence at Blainmore. Lethbridge Herald.

and we have frequently heard that he was the best relief officer in western Canada. He had a wonderful memory for names and data and had the city relief situation at his finger tips at all times. No person could put 'anything over on him' and he was most energetic at his work. At finger print and in photographic police work he was at his best and his position as relief director will be a hard one to fill.

"Farrell entered the city police service on October 29, 1931, continuing as constable until August 16, 1932, when he was loaned to the city relief department. The whole force is shocked by the tragedy which has taken two of its favorite members."

WORLD HAPPENINGS
BRIEFLY TOLD

Ruman had a favorable balance of trade for the first six months of 1933—for the first time since 1928.

Gold held by the Minister of Finance on July 31 was \$71,928,288 or \$601,532 in excess of statutory requirements. Dominion notes in circulation totalled \$182,113,558.

Twenty million feet of British Columbia lumber have left for world markets. Three-quarters of it is destined for China, on the Dominion-subsidized service.

High import duties and other emergency measures will be continued as part of the Italian government's program to maintain a sound internal wheat market, Premier Mussolini has announced.

Raymond Poincaré, France's war president, was serenaded by the town band while he received felicitations from neighbors in a quiet celebration of his 73rd birthday at his summer estate at Sampey, France.

Caught in full foliage by the surprise snowstorm on August 21, trees were broken and flower gardens ruined at Butte, Montana. The maximum temperature for the day was 44 and the minimum 31.

Captain William J. Webber, 65, steward at Rintama during the term of Earl Grey as governor-general, and for many years on the staff of the Dominion archives, died recently at his home in Ottawa.

New cosmic ray studies announced by Dr. Robert A. Millikan, of New York, indicate these rays constitute a powerhouse of energy from 30 to 800 times greater than all the rest of the radiant energy in the universe.

One of the men who discovered the route to Klondike gold fields via Great Slave Lake and Yukon River, Robert Hogarth Milvain, 70, is dead at his home in Snowhill, England, according to word reaching Calgary. He was a pioneer resident of Calgary, locating there in 1886 to become a noted horseman and polo player.

Now Comes Odorless Rubber

Chemists Find Zinc Carbonate Reduces Smell To Minimum

If rubber had no odor, it might find profitable uses in milk cans, beer cans and food containers. From London has come news that two chemists of the Rubber Growers' Association had located and practically eliminated rubber's inherent smell.

In "wild" rubber (collected from virgin forests), putrefaction produces a disgusting smell. But most U.S. rubber comes from man-arranged plantations. Plantation rubber has its smell from the sulphur or nitrogenous accelerators required to cure the rubber for commercial use. The Rubber Growers' chemists, H. P. Stevens and E. J. Parry, have been unable to find substitute accelerators as good as the smelly ones. On the other hand they found that zinc carbonate added during the manufacturing process reduced smells to a minimum, and very simply. More complicated and costly is the purification of the latex (the original rubber fluid tapped from the tree) by digestion with dilute caustic, centrifuging, creaming, dialysis, or ultra-filtration.

Fragment Of First Cable

Fisherman Brings Up Piece Of Line Laid In 1915

While hauling his trawls off Cape Ray recently a fisherman dragged up from the ocean floor a fragment of the first submarine telegraph cable used in American waters. It was a piece of the line laid in 1855 by Professor Samuel Morse and Cyrus W. Field between Aspy Bay, Cape Breton, and Cape Ray. The cable was manufactured in England, the first stranded conductor ever made. Despite its long immersion, the insulation retained its odor of gutta serena. Until 1866 the eastern extremity of telegraphic communication was Cape Ray. Off that point westbound ocean liners dropped overboard canisters containing European newspapers and dispatches and telegrams from passengers. A boat was always stationed there to pick up canisters. Newspaper men condensed the dispatches and put them on the wire, bringing news of world events to New York ahead of the steamships.

Not To Be Caught

The company promoter was trying to raise capital for a new scheme. "I'm telling you," he said to a financier, "it will make gigantic strides later on. Just now, of course, it's only in its infancy."

"Perhaps," replied the financier, "but I'm not in mine."

Aluminum Ore Found

Discovery Is Reported To Be First In Canada

Discovery in the Kinslaine district of a great body of aluminum ore-bearing clay has been reported to the government by Dr. David Flood, geologist, who has spent six years investigating in the north country. He states that the discovery is one of the most important to have been made in the history of the province. Early development of the area, which lies five miles northeast of Kinslaine, is forecast by Dr. Flood, who has made a full report to the government on his find.

The discovery also means, according to the geologist, the earlier development of the hydro-electric project east of Prince Albert, the proposed site of which is just 12 miles from the ore-bearing clay.

This is the first discovery of its kind in Canada. Mr. Flood said there is a small deposit of aluminum in Arkansas, but the bulk of the world supply comes from British Guiana.

Dr. Flood, who is a native of Sweden, also touched upon the other mineral possibilities of Northern Saskatchewan and states that North Saskatchewan would one day produce gold, silver and nickel. He found them all, he declared, in his wanderings as chief geologist for a big syndicate.

Recipes For This Week

(By Betty Barclay)

EMERALD ECHO SALAD

1 package lime-flavored gelatin.
1 pint warm water.
½ cup canned crushed pineapple, drained.

3 tablespoons pimiento, cut in strips.

Dissolve gelatin in warm water. Pour ½-inch layer in loaf pan. Chill until firm. Chill remaining gelatin mixture until cold and syrupy. Place in bowl of cracked ice or ice water. Whip with rotary egg beater until fluffy and thick like whipped cream. Fold in pineapple and pimiento. Pour over firm first layer. Chill until firm. Unmold on crisp lettuce or chicory. Serve with mayonnaise. Serves 8.

CORN SUFFLE

Mix in a saucepan two tablespoons of four with one tablespoon melted butter. Pour in slowly one cup of milk. Bring to the boiling point. Add one can of corn, one teaspoon sugar, one teaspoon salt, pepper to taste, and one dozen yolk of two eggs. Fold in the whites of the eggs, beat stiff. Then turn into a buttered baking dish, and bake for thirty minutes in a moderate oven. Serve immediately.

Checking Up On Wild Fowl

United States Naturalist Makes Tour Of North Land

No estimate of the prospects awaiting local mimros was forthcoming from Luther J. Goldman, field naturalist and biologist of the United States Department of Agriculture, who was in Prince Albert recently. Mr. Goldman has been making an extensive trip studying migratory fowl conditions on behalf of his department. "The vast areas of Canada's northland, of which, because of its nature, we have only scratched the surface, forbids any estimate of increase or decrease in the number of ducks year by year," said the investigator.

The drought conditions of the south, which have driven the birds from usual nesting places, will also have its effect on this year's duck breeding, thought Mr. Goldman.

Leaving California in June, Mr. Goldman has travelled over a large area including the southern portion of Alberta and Saskatchewan, then on into the north. He now expects to swing into northern Manitoba, then on to eastern Canada, and back to the States, where he will report on conditions prevailing in Canada which information is used by the United States department in setting the bag and time limits for the open season.

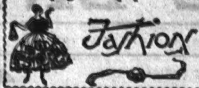

Knit Own Wool Blankets

The low price which Canadian farmers' wives receive for their wool has introduced the knitted blanket to Manitoba farm homes. The Manitoba Handicrafts Guild has shown them how to knit blankets from the raw wool pulled out into loose, thin strands.

Linoleum does not have to be scrubbed so often if varnished or shellacked, then waxed.

Small mine owners in Bolivia find it difficult to get workers.

AN EXCEEDINGLY WEARABLE DRESS

All you have to decide is the color.

Whether you want a dress for street, afternoon, or office wear, here's your number.

For town and office wear, it looks so smart and trim in light navy blue crepe silk. And it takes but ¾ yard of 36-inch material for the 36-inch bust.

Prints in crepe silk in white and white or in red and blue are stunning too.

For afternoon, grey or beige crepe silk is especially nice.

Note the chic sleeve detail to give the fashionable wider shoulder line. And the bias seaming that makes the bodice "fitting."

It's a very simple model to make. There are so few major parts to the pattern.

Style No. 749 is designed for sizes 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34 and 42 inches bust.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap cut carefully.

A Minor Complaint

Mrs. Alva Johnson of Oklahoma City has asked for a divorce from her husband. The court asked her what grounds she desired to lay the charge, and the lady replied that she had no particular complaint against him only he had not been home since 1920.

CUBA'S GRATITUDE FOR WELLES

Wonderful models of aeroplanes used for official tests are made by a Reading, England, man in his kitchen.

Two of a load of calves being transported by truck across Montreal's harbor front recently escaped from the truck. One struck off through the city and was soon caught, but the other headed for the river and, swimming downstream had gone nearly a mile before being lassoed and brought to shore in a fast motorboat.

British Railways Have Complete Moving Service

Pack and Unload Goods and Help With Settling.

Did you know that British railway carriers would by your carpets and linoleum for you—or even move your lawn? says London Answers.

These things, if desired, are part of the very comprehensive removal service that is run by the British railways. The furniture is packed by experts into special containers, which is shipped by rail as it stands. At the other end the container is taken by road to the new home, where it is unpacked. It is at this stage that carpets and linoleum may be laid, pictures hung, linen, utensils, etc., transferred to shelves and cupboards—and the lawn made pleasant.

Over fifty removals are carried out daily by the railways—some of them at very short notice. You may give your instructions to the company in the morning and your furniture be on its way early in the afternoon.

And it isn't only household removals that are catered for. The railways will move a farm—live stock, implements, and so on—between one milking time and another, or transport a factory in production from its former home to a new building.

Keep Away From Airmen

Aviator's Wife Says Marry Man Who Keeps Feet On Ground

"Never marry an aviator," advises Mrs. Wiley Post, wife of the round-the-world flyer. "Find a husband who keeps his feet on the ground."

Doubtless when Drake sailed round the world, young ladies of his time were warned against marrying sailing men. And the advice would receive just the same consideration.

Fortunately, human nature is such that while some women and their ideal mates in the adventurous male, their sisters achieve greatest bliss through marriage the "feet-on-the-ground" citizen. The world, if it is to progress, needs both types.—London Sunday Pictorial.

Lays Foundation Of Fortune

Indiana Man Plants Walnut Trees As Legacy For Daughter

By planting, in his spare time, 14,000 walnut trees on 29 acres of watershed land, J. B. Lemmon, of Washington, Indiana, has laid the foundation of a fortune for his young daughter.

In 40 years, according to the national forestry department, 8,000 of the trees should have survived and reached maturity. They will be worth, at present low prices, \$160,000 as timber wood. Should the daughter wish to keep them, they should in 40 years be producing an average of one bushel of nuts each which at \$1 per bushel will give her an annual \$8,000 income.

SUNDAY SCHOOL LESSON

SEPTEMBER 3

DAVID

Golden Text: "Man looketh on the outward appearance, but Jehovah looketh on the heart."—1 Samuel 16:7.

Lesson: 1 Samuel 16:1-13; Psalm 18:7-20.

Devotional Reading: Psalm 101:1-8.

Explanations and Comments

Samuel's Mission To Bethlehem, verses 1-3.—Saul's failure caused Samuel sorrow. He realized that he must take definite action about Saul's successor, that this was God's will. He must go to Bethlehem with flask (horn filled with oil) to anoint one of the sons of Jesse as the Lord's chosen king. Yet he hesitated to go. Would not Saul kill him if the fact became known? Then a way out of the difficulty came to his mind: a matter of prudence he would give as the object of his visit the holding of sacrifices, and would keep silent about the more important reason for his coming. He would give one reason for his visit, which was a true one, and would say nothing about another reason, which was under no obligation to divulge.

It was not concealment the object of which was to mislead any one, or to induce anyone to do what would be unwise. It was a matter of prudence he would give as the object of his visit the holding of sacrifices, and would keep silent about the more important reason for his coming. He would give one reason for his visit, which was a true one, and would say nothing about another reason, which was under no obligation to divulge.

It was not concealment the object of which was to mislead any one, or to induce anyone to do what would be unwise. It was a matter of prudence he would give as the object of his visit the holding of sacrifices, and would keep silent about the more important reason for his coming. He would give one reason for his visit, which was a true one, and would say nothing about another reason, which was under no obligation to divulge.

LABOR DAY

"Ye are the light of the world."—Saint Matthew, Chapt. 5, Verse 11. Workers, today is yours. Yours, too, is that greater Today, embracing the Past and the Future. You have taken a chaotic and hostile environment, and beaten it, subdued it, moulded it into a super-structure of civilization. Your clean strength has made toil a thing of beauty. By your courage you have taught men to live without fear, as by your aspirations you have taught them to live with hope.

Workers, you are the soul of the factories and fields and mines and ships and railroads. You are Masters of the Machine. You can say whether or not the wheels will turn. You can determine the theme of Progress and force its advancement.

Workers, your power is infinite. You form the links between nation and nation, people and people, creed and creed. You are Millions and are One. While your hands are feeding, clothing and sheltering the world, your eyes are fixed upon an ideal. You alone will lead the way to universal brotherhood.—F. R. McCree Press.

MUCH TOO OPTIMISTIC

Ontario's attorney-general is touring in Great Britain and recently addressed a Glasgow audience. In his talk he naturally boasted Canada, which was all to the good. But when he suggested that the Dominion was ready to absorb millions of British emigrants in the next 25 years he was surely allowing his enthusiasm to get the better of common sense.

Not today, nor until we have emerged from this world economic slump in lots of thousands, to say nothing at all of millions. Not even if these British immigrants were financed over a term of years by British dole funds, as has been proposed, would it be safe for Canada at this time to open her gates to them. There still remains too great uncertainty as to the future to warrant any such magnificent gesture of optimism concerning it.

And, as has been said before, if there is any suggestion of assisted land settlement at this time, or at any time in which sons of Canadian citizens are anxious to settle on the land but are prevented because of lack of funds, first consideration should be paid to them and their needs.

An eastern contemporary makes the suggestion that if there is disposition on the part of British authorities and financiers to invest money in the settlement in Canada of eligible Britishers now on the dole, they might better send the cash to Canada for investment in industrial or other enterprises with greater chance of profitable return to themselves and of permanent advantage to this Dominion.—Calgary Herald.

A Polish citizen of Canada, who recently returned from the old land was asked as to whether he'd rather live over there than in Canada, and replied: "If I did, I'd stay there."

When a Chinese coolie says "hiya" he is not greeting you or politely passing the time of day. He is asking you to get out of his way, in the information given by Miss A. C. Stewart, of Vancouver, and her party of 25 Canadian women who came back on the Empress of Russia from a six weeks' tour of the Orient.

THE PASS SIXTEEN YEARS AGO
(The Blairmore Enterprise, 1917)

May 25.—The retail grocers of Sydney, N.S., have requested the mayor to call a meeting to organize a national service committee, and have suggested that a general holiday each week be proclaimed in order to release men to assist farmers who are known to be short of help.

The Frank branch of the Canadian Patriotic Fund reports having raised \$5,067 between November 1st, 1915, and April 30th, 1917.

George Taggart, recently reported killed in action, is still alive and in the fray, according to advice received by W. H. Chappell.

George Boyes has severed connection with the Franco-Canadian Colonies at Frank, and will reside at Pincher Creek.

The marriage took place at the residence of Mr. and Mrs. Frank Weir at Frank last night of their youngest daughter, Julia, to Frank Novotny, Rev. W. T. Young officiating.

A daughter was born to Mr. and Mrs. James Smyth, of Cowley, on May 15th.

The marriage of Ethel Jean, daughter of Mr. and Mrs. Robert Welsh, Lundbreck, to Harold Elwin Tustian, took place at Lundbreck on May the 16th, Rev. W. M. Chalmers officiating.

The name of H. Rhodes, Lundbreck, was contained in Monday's casualty list as wounded in action.

Early in December last, Mrs. Raoul Green lost a purse containing valuables to the extent of \$100, and advertised same in The Enterprise. Last week a small boy, in digging out bottles from underneath a sidewalk, unearthed the purse and returned it to Mrs. Green. It had been robbed of all but seventy cents.

The total enlistment to date in Canada are 412,437.

Intoxicated fish by the thousands have been picked up along the river between Blairmore and Lundbreck. A week ago, the police dumped about 500 gallons of intoxicants into the river.

June 1.—Paddy Ryan, well known former resident of Cowley, died at Markdale, Ontario, on May the 11th. James Connors left Bellevue this week for Rochester, Minn., accompanied by Dr. MacKenzie.

Freddie Welsh this week lost the world's lightweight title to Benny Leonard.

Bert Sensier this week received word of the death of his mother in England.

Building permits have been granted to the following: E. Pozzi, to erect a sign post in front of his lumber yard; D. May, to build a garage; Alex. Morency, to erect a dust and water arrester on the south end of his automobile, and H. Adderley to remove an impediment from the throat of one McLaughlin.

June 8.—The marriage of Miss Isabella Fines to Joseph Wolstenholme took place at the residence of Mrs. D. Fraser, Blairmore, on June the 1st, Rev. D. K. Allan, of Coleman, officiating. The bride was supported by her sister, Mrs. D. Fraser, while Mr. W. Wolstenholme acted as best man.

Fernie has subscribed \$59,857 to the Patriotic Fund. Mrs. Emmeline Pankhurst has asked Premier Lloyd George for passports for herself and members of her party of social workers to Russia, to explain their views on the war.

Miss Anna Fulton has tendered her resignation as teacher, to take effect the end of this term.

Sergeant Major Loftus was found dead in his room at the King George hotel, Calgary, on Tuesday night. He enlisted with the 192nd Battalion at Blairmore.

During the sessions of the Oddfellows' grand lodge at Moncton, N.B., recently, the Rebekah degree was conferred upon a number of candidates in the presence of over 700 members of the order.

BLAIRMORE UNITED CHURCH
Rev. Albert E. Larko, Minister

"Serve the Church that the Church May Serve You."

Services Sunday, September 2nd, the minister in charge.

11 a.m.—SENIOR SCHOOL

2 p.m.—JUNIOR SCHOOL

7:30 p.m.—PUBLIC WORSHIP

'Labor Sunday' sermon.

LABOR SUNDAY AT

UNITED CHURCH

The holiday arrangement between Blairmore and Pincher Creek proved a most happy one, both for ministers and people alike. Now the minister is back on the job, prepared to get under way for Fall and Winter activities. The service on Sunday will be in keeping with Labor Day. All are cordially invited to attend the service.

ST. LUKE'S CHURCH NOTES
Rev. A. S. Partington, B.A., Rector

Services Sunday, September 3rd

Sunday school in the hall at 10 a.m.

Evening in the church at 7:30 o'clock.

BLAIRMORE PUBLIC LIBRARY

The library will reopen on Saturday, September 2nd, at the usual hours and will be open every Tuesday, Thursday and Saturday.

A number of new books have been purchased, and will be placed on the shelves as soon as recording is completed.

SOMETHING GOOD

FROM PYJAMAS

A California clergyman announces that he will wear pyjamas in the pulpit on Sunday night next.

A black bear, overtaken on the trail up Castle River, was so large that Andy Dow was unable to get his arms around its waist.

"A word of wisdom to the least hard-boiled: The most complete, lost of all days is the one in which we have not laughed."

W. J. Kraft and F. J. Braun, of Safeway Stores, are in town today from Calgary, visiting the local store on a tour of inspection.

Mrs. Roberts and Mrs. Vaughn, who went under operations in the Coleman Miners' hospital over a week ago, are making satisfactory progress.

Advertisers in The Enterprise have the pleasure of knowing they are not patronizing a Red sheet, but something that has the best interests of the community and district at heart.

Since the announcement in our last issue of the special premium offer of a one-dollar cake plate for every one-year paid-in-advance subscription, The Enterprise has been literally swamped with new subscriptions and renewals. The plates, which will arrive from England within the next two or three weeks, will be mailed or delivered to our subscribers.

Monday next, Labor Day, will be featured by two big field days at Fernie and Bellevue, and the flower show at Bellevue, which is an annual treat eagerly looked forward to by all good citizens of The Pass. This year's show promises to be quite up to and possibly better than the previous good standard. Children and grownups of The Pass are keenly interested in the sports, which will include high jumps, sprints, softball, football, etc. Here's hoping they'll be favored by the weather man.

WORLD'S LOWEST RENT

St. Georges, Bermuda, August 28.—Masonic Lodge, No. 200, situated here, recently paid its rent for the month. The building it occupies was originally State House and still belongs to the British Crown. The monthly rental is one peppercorn, the berry of a plant.

This particular lodge is believed to be the oldest Scottish Masonic lodge in any British Colony. A new tourist booklet tells the story. Copies, sent to Canadian National Steamships for distribution, show the glories of this town, once the capital of Bermuda.

NOW YOU CAN LIVE FOR THIRTEEN CENTS PER DAY

Don't let the depression worry you. You can feed the family at thirteen cents per head per day if you follow the advice sent out in a new bulletin published by the Dominion Department of Agriculture on beautiful meals at low cost.

A family of two adults and three children can be fed for a total expenditure of \$4.65 per week, if instructions in the new bulletin are lived up to. This bulletin can be obtained on application to the Publications Branch, Department of Agriculture, Ottawa, and no postage stamp is required on the envelope containing the request.

Who wants to be a groom when anyone else can be considered the best man?

Magistrate J. W. Gresham and J. R. McLeod were among local friends who attended the funeral of Sgt. Blockside, and Constable Farrell at Lethbridge yesterday. We understand that Mrs. Farrell and young son will come to Blairmore to spend a while with friends.

CONVENIENT BANKING

People who live at some distance from a bank find it convenient and entirely satisfactory to do all their banking by mail. This branch of The Royal Bank is no further away than your mail box. Write the Manager for full information.

THE ROYAL BANK OF CANADA

BLAIRMORE BRANCH - J. B. WILSON, Manager

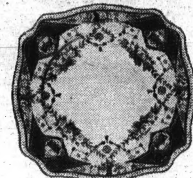

BELLEVUE BRANCH - E. E. CRANSTON, Manager

A newspaper carried this heading: "Girls tied in a local softball field." How dreadfully cruel!

The model of the Prince of Wales' ranch, which attracted so much attention at the Regina grain congress, is to be removed to Toronto for the national exhibition, and will also be on display at the Royal winter fair. The model is 120 feet long, and is an almost perfect replica of the ranch, in every detail.

The Oddfellows' grand master of Alberta, Bro. McPherson, has had a clock installed in his car, so he has time for everything.

The Claresholm Local Press remarks: It is a singular coincidence that hog prices should advance a dollar a hundred immediately after MacKenzie King's Claresholm address. The hog market is in a state of almost perfect replica of the ranch, in every detail.

HILLCREST HAPPENINGS

Miss E. Hart and Mrs. Cummings returned Thursday from a holiday spent in Victoria.

Mrs. Martin and daughter Audrey returned Wednesday from Edmonton.

Lorraine Price, of Edmonton, was a visitor here last week at the home of Mr. and Mrs. W. Makin.

Miss M. Chardon resumed her classes in music here on Thursday last.

Mr. and Mrs. W. Brushett returned from Edmonton last week.

A. Chrysler returned from holidaying in Calgary.

John Stobbs, of Vancouver, is visiting at the home of Mr. and Mrs. Harry Stobbs.

Miss B. C. Sellen returned Sunday from Edmonton.

Mr. and Mrs. Jackson returned home to Calgary last week.

Miss M. Porter left on her holiday last week.

Miss A. McKerracher left for her home on Saturday last.

Mr. and Mrs. Harry Instone and daughter Freda returned from Vancouver last week.

Miss Lottie Thornton returned from Calgary last week.

Mr. and Mrs. S. Halton were visitors at the home of Mr. and Mrs. W. Moser last week.

Mr. and Mrs. W. Webster and family returned Sunday from Mountain View.

Miss E. Strachan returned Sunday from Calgary.

Russell Davies, of Coaldale, was a visitor at the home of Dr. and Mrs. G. B. Rose last week.

Miss I. Turner returned Saturday from Kimberley.

Mrs. Jenson, of Calgary, is visiting at the home of Mr. and Mrs. W. Fisher.

Mr. and Mrs. Rolf and son Alan left for Vancouver on Monday.

Mrs. R. Letcher was a visitor to Trail last week.

Stan Turner entertained a num-

ber of his friends at a party on Friday.

A Chrysler took a truckload of girls and boys on a picnic at Lee Lake on Monday.

A shower was held by the young people of Hillcrest, in honor of Miss Mary Gurus, on Friday evening.

The Hillcrest football team lost to Michel on Saturday 3-0.

A dance was held in the Union hall on Saturday by the softball team.

Mrs. S. Rose returned to Vancouver on Sunday.

The Hillcrest Boy Scouts and Wolf Cubs' draw on Tuesday resulted in the following prizes being awarded:

Mr. Dixon (Blairmore) Rolls razor; Mrs. J. Mansell, shoes; Miss Irene Turner, flour; Mrs. C. Lawrence, ham; T. Omeluski, shirt; F. Antrobus (Coleman) camera; Mary Stevenson, coal; Rev. R. J. Donovan, tea and coffee; J. Collins, roast of beef; Dickie Gardiner, 3 gallons gasoline; H. H. Beach (Edmonton) 10 lbs sugar; H. W. Clark (Coleman) chocolates. The lucky numbers were drawn by Misses Peggy Norton, Dessie Thomas and Gwen Hamalak.

A very exciting game of baseball was held here on Sunday between Hillcrest and Blairmore. The local team was defeated 11-5. The Blairmore team was made up of Atkinson, Joyce, Veprava, Taber, Gates, Herman, Huchala and Beaver, while the Hillcrest team included: Elik, Kubasek, Marcolin, C. Richards, W. Richards, G. Grant, Cassagrande, Price and A. Grant.

BELLEVUE HAPPENINGS

Bellevue school opened on Monday last with three new teachers on the staff, Mr. Marcelin, Mr. G. Clayton and Mr. A. Schmiedl.

Miss M. Graham, Miss B. Nicholson and Mr. W. Zumwalt returned to town last week, after a two-months vacation.

Miss Margaret Hillworth returned last week from a pleasant vacation spent in Vancouver.

Ken McDonald and Walter Warn, junior, left Sunday for Vancouver.

R. Shevels and Miss B. Radford left Sunday morning to spend a holiday at Vancouver.

Harry Meade was a visitor to Calgary last week.

W. Goodwin left for Calgary yesterday morning.

A. Forbes and Charles Bloomfield, of Calgary, are guests of B. Goodwin.

H. Wilson, of Lethbridge, was a visitor with A. Christie here on Tuesday.

All roads will lead to Bellevue on Labor Day. Besides the flower show, George Sutherland, of DeWinton, Canada's champion athlete, will give an exhibition of javelin, hammer, discus and 16-pound shot throwing.

A number of Bellevue high school students were writing supplementary exams at the Blairmore school last week.

Mr. and Mrs. James Cousens and Mr. and Mrs. L. Cousens returned home Friday evening from a trip to Seattle.

Mr. and Mrs. A. Padgett and family returned from a trip around the Banff-Windermere highway and as far as Spokane. Mr. and Mrs. F. Padgett and family and Mr. and Mrs. J. Shevels and son Joe also returned from a similar trip.

Mr. and Mrs. J. H. Green are holidaying at Glacier national park.

LOCKHART - MAKIN

Miss Florence Makin, of Hillcrest, was married at Edson on August 30 to David Lockhart, of Mountain Park, Rev. Mr. Austin officiating. The bride was supported by her sister, Miss Jennie Makin, of Hillcrest, and the groom by Charles Makin, of Mountain Park—Edson-Jasper Signal.

Bellevue and District Horticultural, Industrial and Poultry Society

Labor Day Sports Program

Children's Races at the Sports Field at 10.30 a.m.

DANCE AT NIGHT IN L.O.O.F. HALL

LEE LAKE NOTES

A summary of Lee Lake visitors during the last few weeks shows that its beauties have been enjoyed by people from as far east as Hamilton, Ontario, and as far west as Victoria, B.C.

The water is slightly cooler now than it was three weeks ago, but it is still very enjoyable for a plunge after work. Prominent business men from the Pass who enjoy swimming almost daily include: J. Brunet, J. R. Smith, L. P. Robert, of Blairmore, Messrs. Rippon and McBurney, of Coleman, with their families, of course.

H. Harrison and family decamped very reluctantly on Sunday, but we have noticed them down here nearly every evening since.

C. Ritchie and family also went back to their home in Bellevue on Sunday, after spending over 7 weeks at "Horn Inn" on the lake, and enjoying one of the best holidays they ever had, so they said.

Mr. and Mrs. A. N. Cox brought over their most recent possession—an 18-foot boat with an out-board motor—on Sunday and made themselves the most popular of visitors by inviting all and sundry to take a trip around the lake. Surf-board riding was the vogue, and after a few more trials we will probably be sending competitors to Honolulu.

Yvonne Harrison showed great natural ability, also fondness for the water. We hope Mr. Cox will bring his boat again, and any others who may have boats and no water to run them in.

Nothing over pleases a married man as much as telling him he doesn't look like a married man.

See Cole's Theatre ad on the front page of this issue. Anything advertised in The Enterprise is considered by our readers as truly worth while.

A Brighton man claims to have been the first person stung by a wasp this year. He can have the same distinction in 1934, as far as we are concerned.

Young Man (to Trono): "Will you take back this engagement ring?" Trono: "Doesn't it suit?" Young Man: "Yes, but—but—but I don't."

"Ah," said the customs man on producing a bottle of whiskey from Sandy's trunk. "I thought you told me there was nothing in here but sleeping apparel!" "Well," said Sandy, "that's my night cap."

"Before I married, my wife made me promise to quit smoking."

"And you kept your word?"

"Yes. But what's the difference. Now, I'm doing my best to get her to promise not to begin."

BURRELL KNOCKED OUT

BY ANGUS MORRISON

A splendid boxing programme was staged at Coleman last week, in which Jimmy Burrell, in a second main feature bout, lost to Angus Morrison, of Kimberley in the fifth round of a scheduled ten-round go. In the main event, Murdo Morrison, brother of Angus, was awarded decision over Duke Hyssop, of Lethbridge, also in the fifth, to the average onlooker appearing as though the best man lost. A number of good preliminaries were staged, in most of which draws were recorded. Frank Baringham handled the prelims, while the old warhorse, Bill Burrows, looked after the main events. A record crowd of fans proved that the boxing game was becoming more and more a favorite. The Coleman band was in attendance and rendered entertaining selections throughout the evening.

Angus Morrison has been challenged to meet Dick Hughes, of B.C., in a lightweight bout in the near future. Angus appeared in excellent form and at the age of around 20 presents an opponent for anyone of his age and weight in Canada.

This was Burrell's second bout within a week, having been locked by matrimony but three days prior to his try at Coleman.

As we go to press, we learn that arrangements are being made for a repeat bout between Murdo Morrison and Hyssop. In the bout at Coleman, Hyssop's eyes were injured by Morrison's shoulder, necessitating his quitting the fight that was really his in the fifth round.

NEW WEATHER PROPHETS

Saint John, N.B., August 28.—

Weather prognosticating varies all the way from the meteorological surveys maintained by the various governments to Uncle Hiram and his rheumatism. A new method has come to light along the water front here, declare officials of the Canadian National Steamships. Mariners versed in this weather lore, on leaving the harbor, pay attention to the "stance" of the seagulls as they perch on structures. They say the gulls all face the same way and invariably look out toward the direction from which the wind will come. Suddenly the gulls will turn toward the east, with the wind still due south, but the seamen weather prophet knows that the wind will be around in the east in about two or three hours. "Believe it or not."

Solomon may have been the wisest man of his day; but, of course, that was before Murphy's time.

COLEMAN, ALBERTA

SALE of TIMBER

PUBLIC NOTICE is hereby given that there will be offered for sale by public tender at the office of the Provincial Forest Ranger at Coleman, Alberta, at 2 o'clock on Monday afternoon, October 2nd, 1933, the right to cut timber under Sale No. 205 on the following lands:

Sections 17, 20 and 21 in Township 9, Range 4, West of the 5th Meridian.

On these lands there is estimated to be 5,400,000 feet Board Measure of Green Saw Logs suitable for the manufacture of Lumber, but only such timber shall be cut as is marked or otherwise designated.

The sale shall be for one year, but provided operations are conducted in a manner satisfactory to the officers of the Department and payments are being met satisfactorily, extension of operations may be granted for a second, third, fourth and fifth year, but no further extension shall be granted.

Each bidder will be required to deposit with the officer conducting the sale the sum of \$1200.00 in cash, bank draft or acceptable cheque payable to the Director of Forestry, Edmonton, Alberta, before being allowed to bid. A deposit of \$1200.00 will be returned to the bidder at the conclusion of the sale, and that of the purchaser held as a guarantee deposit to be forfeited in case of failure to comply with the sale conditions or the Forest Reserve Regulations.

Full particulars may be obtained from the Forest Supervisor at Calgary, Alberta, or the Director of Forestry, Edmonton, Alberta.

J. HARVIE, Deputy Minister.
T. LEEFGEN, Director of Forestry.
Department of Lands and Mines, Edmonton, Alberta, August 28th, 1933.

A farmer in Pictou County, Nova Scotia, was fined five dollars by a Mountie for leading a cow along the road without a light. Yes, there should be tail lights on all cows on roadways.

LABOR DAY FARES

Between all points in Canada
SINGLE FARE for ROUND TRIP
Good going and returning same day, September 4, 1933.

FARE and one QUARTER

Good going from 12 Noon Sept. 1 till Noon Sept. 4. Return leave destination by Midnight Sept. 5.

Aching, Swollen Feet

No sensible person will continue to suffer from those intense agonizing, throbbing foot pains when every well stocked drug store has Moone's Emerald Oil and sells it with an absolute guarantee of satisfaction or money back.

Your feet may be so swollen and inflamed that you think you can't go another step. Your shoes may feel as if they are cutting right into the flesh. You feel sick all over with the pain and torture. You'd give anything to get relief wouldn't you? Then get this.

Two or three applications of Moone's Emerald Oil and in fifteen minutes the pain and soreness disappears. A few more applications at regular intervals and the swelling reduces.

And best of all offensive odor is gone for good—it's a wonderful formula—this combination of essential oils with camphor and other antiseptics so marvelous that thousands of bottles are sold annually for reducing varicose or swollen veins.

The Blairmore Pharmacy and every good drug store guarantees Moone's Emerald Oil to end your foot troubles or money back.

BEAUTIFUL MONUMENTS of cedar, from 8 to 16, carved epigraph. Freight paid—Western Wood Monuments, 10880, 75th St. Edmonton, Alberta. Agent wanted.

Meets Second Tuesday at 8 p.m. in the Lodge Hall. Visitors made welcome. J. R. McLeod, E.R.; John A. Kerr, secretary.

Canada As a Leader

Judged in terms of years, Canada is a very young country, and this fact is brought home to any one who studies the histories of the countries of Europe and Asia. Canada, too, while a country great in area, is of sparse population and in this respect is nowhere comparable to the older countries of Asia and Europe, or of the United States.

But during its brief history, Canada and the Canadian people have achieved some truly great things and pioneered in numerous fields which have resulted in conferring outstanding benefits upon all mankind.

Our thoughts are turned in this direction by the centenary of one very notable Canadian achievement. On August 5, 1933, Canadians celebrated the passing of one hundred years since the first vessel crossed the Atlantic Ocean, any ocean in fact, steaming the whole way. It was a Canadian vessel, the "Royal William," built at Quebec and launched on April 29, 1833, and with Canadian built machinery except the cranks and shaft, which made this epoch voyage, sailing from Pictou, Nova Scotia, on August 5, 1833, for London, England.

Other vessels had previously crossed the seas using steam to a certain extent, but no other vessel had ever made the voyage with "steam up" all the way. According to an account of this world-famous vessel appearing in the August number of the Canadian Geographical Journal, the "Royal William" actually established seven primary records—two Canadian records, three foreign records, and two world records.

The "Royal William" was: (1) The first steaming steamer ever built in Canada; (2) the first steamer that ever plied on intercontinental affairs, from Quebec to Halifax; (3) the first steamer that ever entered a U.S. harbor under the Union Jack; (4) the first steam transport in Portugal; (5) the first steam man-of-war in Spain; (6) the first vessel in the world that ever fired a shot in action under steam; (7) the first vessel that ever crossed any ocean steaming the whole way.

In celebration of the centenary of this last mentioned achievement the Canadian Government has issued a special commemorative postage stamp which, unquestionably, will be greatly prized by stamp collectors throughout the world, and which will serve to bring to people in all lands knowledge of this great Canadian achievement of one hundred years ago.

This centenary of the "Royal William" also serves to remind one of other outstanding achievements standing to the credit of Canada, young in years as this Dominion is in relation to other nations. Canadians can recall with pride that it was one of their countrymen, Andrew Graham Bell, who invented the telephone, thus giving to the world one of its most useful and widely used means of communication.

It was a Canadian who developed Marquis wheat, the effect of which has been to greatly extend the area of the world's surface in which wheat can be successfully grown, and it has been Canadians who have continued that work and developed still earlier ripening varieties such as Garnet and Reward.

Great in area but small in population and wealth, Canada has built up in the Canadian Pacific Railway the greatest transportation system in the world. There are other great railways, other great steamship companies, other great telegraph, express and hotel companies, but no other company in the world combines all these services to the same extent and with the same world-wide ramifications as does the C.P.R. The inauguration of the Canadian Pacific was a tremendous undertaking for a mere handful of people in an enormous but undeveloped country, and its success is a tribute to Canadian initiative, energy and determination.

A Canadian gave insulin to the world, that wonderful agency of relief to the diabetic sufferers of the world, and which has prolonged the life of thousands of people afflicted with such disease.

Nor is it a small matter that through the efforts of a few millions of people they have made their country, Canada, the free trading nation in a world of trading nations, surpassed only by older, much more populous and wealthier nations.

There are many other fields in which Canada, during its brief history, has led the world, but neither time nor space will permit of extending this recital; sufficient has been recorded here to establish the truth that Canadians have reason to entertain great pride in their country and in its achievements. Nay, more, there is every reason why the people of Canada should have unbounded confidence in the future of their country. All nations throughout the world's history have suffered temporary reverses and setbacks; all have passed through periods of depression and hardship. But where the hearts of the people have been true, where they have not been given over to indulgence and sloth, where they have maintained their virility and strength, where they have been courageous and determined, they have always risen above their troubles and reverses, and gone forward to greater achievements, greater glory, greater prosperity and happiness.

All Canada's past history provides an incentive and encouragement to the people of Canada of today. Opportunity has not ceased to knock at the door of Canada. The future holds more of promise than anything yet realized if our people seize the occasion when "Opportunity" does knock.

Land For Ships

Considerable buying has been given Australia to the proposal recently made by Dr. Duhig, the Roman Catholic Archbishop of Brisbane, that the mandated territory of New Guinea be handed back to Germany on condition that Germany contribute adequate ships for Australia's defence. Mandates for the former German possessions in the Pacific were divided among Australia, Japan and New Zealand.

Radium contains a tremendous store of energy. Although it gradually breaks up, only half of a given quantity will disappear in 1,600 years.

Any Looseness of the Bowels Is Always Dangerous

When the bowels become loose and diarrhoea, dysentery, summer complaint and other bowel troubles set in, immediate attention should be given and the discharges checked before they become serious.

To check these unnatural discharges there is a remedy in Dr. Fowler's Extract of Wild Strawberry, a remedy that has been on the market for over 30 years. It is rapid, reliable and effective in its action. A few doses is generally all that is required to give relief. Get it at your drug or general store, put up only by The T. Millburn Co., Limited, Toronto, Ont.

More Specimens Needed

Few Arctic Birds in Collection At Royal Ontario Museum. Bird specimens, numbering 250, collected along the Hudson Bay coast between Churchill and Enderby Point, are ready for shipment to the Royal Ontario Museum, to be added to the collection of 19,000 used for research and ornithological studies. The collector, Arthur C. Twomey, of Edmonton, student of the University of Alberta, who undertakes this work as a private enterprise, has had many specimens accepted by the museum during the past three years. A selection will be made from the shipment when it arrives.

L. L. Snyder, ornithologist at the museum, says the collection of birds from the sub-Arctic is still small. The bird skins used for studies are kept in steel cupboards and placed in long trays, several members of a species together for comparison and examination for variations. The birds appear in natural form, but are "pumped" by the skins with feet, beak and feathers intact. The skins are turned and stuffed with cotton to provide a body.

The birds from Hudson Bay will not be on exhibition, but share the extensive moth-proofed cupboards that already contain close to 20,000 birds. Of the 768 specimens which belong to North America, the Royal Ontario Museum has a fair representation, but there is a requirement for larger collections of the Arctic birds to make more complete the knowledge of Canadian species.

Mr. Twomey will spend the remainder of the summer, it is learned, in collecting other specimens found in Northern Alberta. He is one of several ornithologists and naturalists who make collections for the museum.

World's First Black Rose

No Sign Of Shading Appears In Fragrant Petals. Flowering under the watchful eyes of numerous park attendants, the world's first black rose, pride of the great Sangerhausen roseum, is drawing throngs of visitors to this small Harz town.

The unique flower, the creation of which was recently announced, is a cross between two extremely dark varieties of roses—"Chateau de Clos Vougeot" and "Lord Camille." It is a of a velvety deep black-red hue, so dark—especially in dry, hot weather—that it may be described as black. The fragrant petals show no shading whatever.

Some 400,000 roses in 9,000 varieties are on display. Most of the credit for this achievement belongs to 80-year-old Professor Ewald Gnau, supervisor of the gardens, who is affectionately known as the "rosen-vater" (father of the roses).

Good Crop Of Hay

Thousand Tons Cut At The Pas During Two Weeks. More than 1,000 tons of hay were cut for local use during two weeks in the Carrot River Triangle, all within a 15-mile radius of The Pas, according to estimates made there.

Several outfits have been operating in the area. Hay is good this year. High water did not affect it. It is of better quality than for many years past, haymen say.

A. St. Godard cut 400 tons, Transport Limited 200, others including Frechette, Allard, as well as settlers of the Carrot River Valley, smaller lots.

The Indians of The Pas reserve have also garnered enough for winter fodder.

ON BOARD THE "EMPEROR OF BRITAIN"

"That's a good one," John Nelson (right), president of Rotary International, may have been saying to George Stephen, traffic vice-president of the Canadian Pacific, as the camera-man snapped this aboard the liner "Empress of Britain," just before the boat docked at Southampton, Thursday, August 24. Or, it may have been the other way round—it was not a sound camera. Both are abroad in the performance of their duties. Mr. Nelson to attend a regional conference of Rotary at Lausanne, and Mr. Stephen to visit Canadian Pacific headquarters in Great Britain.

SHE LOST 32 lbs.

New Frocks No Longer Worried Her

"How did she lose that 32 lbs. of fat?" is what you will be asking. Let her tell you herself. "About 18 months ago I weighed 178 lbs.—which I can assure you annoyed me very much. Everything seemed a worry to me, especially new clothes. Nothing would fit me comfortably, and walking was unbearable. I was advised by a friend to try Kruessen Suits, and I am very glad I did, too. During the first ten months I lost 28 lbs. of fat. Now, for the last 6 months my weight has been 146 lbs., and I feel much better in health. I have all my weight tickets to substantiate my statements."—(Mrs.) M. P.

Kruessen contains those six mineral salts, proportionately balanced, found in the waters of those famous European Spas used by generations of fat people to reduce weight.

Kruessen helps blood, nerves, glands and body organs to function properly—you gain new strength and energy—feel years younger—look better, work better.

Apathy Towards Reading

Caused Often By Publisher's Fraught Of Inferior Books. The inventor of the policy of "truth in advertising" died in New York this week before he had got the book publishers of his country to see his point.

For the United States is "distinctly not a book-reading country," says Lincoln Schuster, New York book publisher. And he blames it in great part on the colleges which he says create in too many of their students an apathy towards reading.

But surely the greatest creators of apathy towards reading must be, after all, the publishers themselves. In recent years, at the least, so it seems to many old-time readers, the making of books has become indecency commercialized. Far too often have innocent readers been wrangled into buying an inferior book by the misleading helms put out by the publishers. Such an experience is calculated to arouse in the reader's breast an uncontrollable desire to rush out and buy more books.—Brandon Sun.

Poison Antidote

Discover Effective Medium To Offset Effects Of Carbon Monoxide Poisoning. Discovery of a sulphur-sodium antidote more effective against carbon monoxide poisoning than anything previously known was claimed in a report published in New York by John H. Draize of the University of Wyoming.

The antidote likewise surpasses anything else in effectiveness against cyanide poisoning, he says. He credits the cyanide discovery to B. Forast, an Italian scientist.

The antidote is sodium tetrathionate, a well known synthetic chemical. Its constituents are sulphur and sodium. Draize used it by intravenous injection on poisoned rabbits.

An Innocent Stowaway

A Scot was engaged in an argument with a conductor as to whether the fare was five or ten cents. Finally the disgusted conductor picked up the Scotsman's suitcase and tossed it off the train, just as they passed over a bridge with a sign which read: "Moon," screamed Sandy, "Isn't it enough to try and overcharge me, but now you try to drown by little boy?"

Back taxes are being paid in wood in Carinthia, Austria.

Experiments In Taxation

Record Of English History Shows Very Few Things Escaped. There have been many strange experiments in taxation in English history, literary the eighth taxed beads, and graduated the tax according to the position of the wearer. The Sheriff of Canterbury was constrained to pay the sum of three shillings and fourpence for the privilege of wearing waders. Elizabeth likewise put a similar tax on every beard of over a fortnight's growth. Elizabeth was also bent on making the country of a religious turn of mind, and all who stayed away from church on Sunday rendered themselves liable to a fine.

In 1695 it was decided that birds should be taxed. The birth of a child to a Duke cost the proud father thirty pounds in taxes, whilst the coming of a commoner child into the world was made the occasion of a tax of two shillings. Bachelors and widowers were compelled to pay for the privilege of single blessedness. It was William Pitt who instituted the window-tax. In the reign of George the First it was necessary to have a license in order to sell hats. Then there was a tax on hair powder and a tax on watches and clocks. In the reign of George the Third a duty of two shillings and sixpence was imposed on bricks. At a later period in the same reign bricks were divided, for the purpose of taxation, into common and dressed bricks, and the duty on each kind of brick was regulated according to its size.

Paid For Grumbling

Man In England Earns Good Living Finding Fault. A London man earns a living by going round the city finding fault with everything. One day he went into a big tea shop and found that the shape of the tencups they used was clumsy. It was impossible to drink out of them without spilling the tea.

So he wrote to the company about it and the cups were changed. He wrote to the London Underground and told them that passengers could alight at a certain station without presenting a ticket. Upon another occasion he saw that a big sign in the West End of the city was not working properly. He told the company owning it that anyone standing on the other side of the street could not read it, and it was changed. His job arose from a life-long habit. If ever he saw anything he was wrong he used to write to the owner about it. He merely used to do it as a matter of principle, but when he was out of a job he suggested that if his criticisms were of any use he should be paid for them. Now he makes a handsome income from being a grumbler!

Has Massive Program

Russia Planned Big Increase In Production This Year. With the launching of the second Five-Year Plan, Russia has outlined a programme of massive production for this year. For 1933 big increases are planned in agriculture, electricity, iron and steel, and other major industries, chemicals and in general manufacturing. Thus, whereas in 1932 about 64,000,000 tons of coal were produced, 84,000,000 are budgeted for this year, and the output of 6,000,000 tons of steel in 1932 is to be increased to 15,000,000 tons in 1933.

It was also said in liquid form, made, so the vendor said, according to the directions of the most knowing merchants and travellers in the East. The year 1839 was a date never to be forgotten in the history of the British Empire, for it was the year in which Empire-grown tea was first sold in England.

LUNCHEON TOMATOES

Two cups cooked tomatoes; 2 cup sweetened condensed milk; 2 cups dry bread, broken in pieces; 1 teaspoon salt; 1/2 teaspoon pepper. Grated American Cheese. Heat tomatoes to boiling point. Add sweetened condensed milk and stir until well blended. Remove from fire, add bread and seasonings. Cover tightly two minutes. Pour into serving dish, sprinkle generously with grated cheese. Serve at once. Serves six.

Victory For The Lawyer

A solicitor, who had been asked out to dinner and was delicately "rumped" for legal information by his host, sent in a bill for "advice." To this the host responded with a demand for payment for the dinner eaten by the solicitor. Equal to the occasion, however, the latter promptly threatened a prosecution for selling wine without a license.

This Clock Is Different

A bronze lion, twelve feet high, which will roar at noon, and a cock, six feet high, which will crow at sunrise and sunset, are features of a new clock erected in Messina, Sicily.

One Good Roll

Deserves Another

This is what men say when they make the acquaintance of Ogden's fine cut cigarette tobacco.

It rolls more easily—that is the first thing that you discover—then light up, and learn the rest of the good news. Sweeter, more fragrant, mellow—than all any smoker could ask in a fine cigarette.

That's why so many men have tried it—liked it—stuck to it. Use Chantecler cigarette papers with it and you will get a still better smoke.

SAVE THE POKER HANDS OGDEN'S FINE CUT

Your Pipe Knows Ogden's Cut Plug

Tea Is Old Beverage

Beverage Used Long Before Beginning Of Christian Era. Tea was known long before the beginning of the Christian era, and though by the thirteenth century it was a universal drink in China it was not until nearly four hundred years later that Europe began to hear of tea through the Portuguese and Dutch. The first Englishman to mention tea was a Mr. Wickham in 1615.

He wrote from Japan to a friend asking for three silver porringers from which to drink tea. Tea was first sold publicly in England in 1667. It fetched from 15s. to 50s. a lb. in the last. It was also sold in liquid form, made, so the vendor said, according to the directions of the most knowing merchants and travellers in the East. The year 1839 was a date never to be forgotten in the history of the British Empire, for it was the year in which Empire-grown tea was first sold in England.

Air Is Essential

A great need of the soil for crop growth is that of an air supply. Every one realizes the importance of air for animals, but that it is needed for plants is not so common knowledge. Roots and vegetables mould and spoil very quickly if deprived of a circulation of air. Cellars, therefore, should be ventilated to secure the passage of air throughout every part of it.

Glasgow, Scotland, will establish a radio patrol police force.

All foreign workers have been prohibited entry into Spain.

W. N. U. 2009

MANITOBA URGES FORMATION OF CENTRAL BANK

Winnipeg, Man.—The Manitoba farmer, through his co-operative organization, held the attention of the royal commission on banking here.

"An old proverb says that hope is the last thing the unfortunate abandon; the continuance of the ruinous price level is rapidly causing our farmers to abandon even hope," said J. T. Hill, representing the Manitoba co-operative conference. He gave the commissioners names of 10 large co-operative organizations comprised in the conference, including the Manitoba Pool Elevators and the United Farmers of Manitoba.

Agriculture in Canada could be improved, immensely and its burden of debt lightened by a re-creating of the banking, credit and currency system of the Dominion, Mr. Hill informed Lord Macmillan and his four colleagues who comprise the commission.

Changes should be designed:

- To raise the general price level to that of 1926;
- To provide the measure of control and regulation required to preserve a reasonably stable general level;
- To provide the authority to co-operate internationally for the purpose of preserving a reasonably stable exchange, especially with those countries which purchase Canadian farm products; and
- To furnish credit to agriculture on terms not more onerous than those provided for ordinary business.

A central bank, not merely a bankers' bank, but an institution which would give service to the public, should be established. Its purpose should not be primarily to make profit. Its functions, said Mr. Hill, should include the exclusive issue of currency. It should control the expansion and contraction of credit. It should be invested with the necessary authority to issue currency or credit against such public or private securities as may be advisable in the public interest.

Finally, it should be clothed with the power to co-operate internationally in respect to exchange so as to facilitate the export of agricultural produce.

Earlier in the sitting, Roy McPhail, secretary of the United Farmers of Manitoba, also made reference to the establishment of a central bank. It must not be under the control of existing banks, he said. And also it should not be under direct government control. The latter carried with it "the danger of too much political interference."

"Rather," asserted Mr. McPhail, "it should be placed in such a position that it can tender advice to both the chartered banks, and to the government, and at the same time be in a position to receive information and advice from both."

Ocean Route Possibility

Colonel Lindbergh Has Faith In North Atlantic Air Route

Reykjavik, Iceland.—Colonel Charles A. Lindbergh believes it will be technically possible to establish a north Atlantic air route to Europe within two years.

With good planes and experienced pilots, he said, flights will be practicable under any weather conditions, but there is the question whether the route would be feasible financially at present.

Copenhagen, Denmark.—Colonel Charles A. Lindbergh and his wife took off from Eki Fjord, eastern Iceland. It was reported, but not confirmed, that they were bound for the Faroe Islands.

American Vessel Seized

Victoria, B.C.—Taken into custody by the fisheries patrol vessel "Givenchy" in command of Capt. W. Redford, off the west coast of Vancouver Island while allegedly fishing in Canadian waters, the American halibut vessel "Curlew" of Seattle, and crew of five men, were brought here. The seizure was made in the vicinity of San Josef Bay.

No Help Needed

Calgary, Alta.—Due to a combination of poor crop prospects and an ever-increasing influx of jobless from British Columbia, demand for harvest hands in Calgary district at present is the poorest in the history of the provincial government employment bureau. It was stated by employment officials.

W. N. O. 2069

Typhoid Fever Epidemic

Toll Of Four Lives Taken In Nunnery In Montreal

Montreal, Que.—Both the milk and water supply at the Mother House of the Sisters of the Congregation of Notre Dame have been tested and found in order and as a result Dr. Seraphin Boucher, director of the Montreal health department announced he was convinced the typhoid fever which has already taken a toll of four lives within the convent and now threatens 26 others, was introduced from an exterior source.

A nun of the order died Wednesday at a Montreal hospital, but she had been ill for many weeks and her disease was not typhoid, Dr. Boucher stated. A check-up in the isolated convent infirmary revealed 26 and not 33 nuns have been definitely diagnosed as suffering from typhoid.

Meanwhile, utmost precautions are being taken to prevent spread of the infection within the convent walls, while special prayers are being said hourly in the convent chapel for the recovery of the ill and for the repose of the dead.

Find Human Problem

Experts At Grain Conference Interrupted By Pathetic Incident

London, Eng.—Even world wheat conferences have their human episodes.

Technical experts from a dozen countries were gathered in earnest conference at Canada House discussing plans to present their peoples to eat better bread.

As they talked, a wee-wee man entered the building. He explained he wanted to get back to his wife and six children in Lethbridge, Alta. He had travelled Scotland and back, 900 miles, looking for a job that wasn't there.

A Canada House official took him in hand to see what could be done. And while the experts talked of granaries bursting with food, the man, a war veteran, wondered where he would get his next square meal.

Carriers Of Infection

Suspects Insects Are Spreading Sleeping Sickness Epidemic

St. Louis.—As the scope of a "sleeping sickness" epidemic in St. Louis widened to include victims in Oklahoma and Kansas, federal, state and city officials concentrated on a story of insects suspected as possible carriers of infection which has been fatal to 22 persons.

Science has been unable to learn much concerning the spread of encephalitis, and never has definitely established the mode of dissemination.

A total of 191 cases of sleeping sickness have been reported in the greater St. Louis area. Four deaths also have been reported at Wichita, Kas., Kansas City, Kas., and Warrensburg, Mo. Cases of the disease have been located at Maryville, Mo., and Muskogee, Okla.

Bandits Captured

Thugs Rob Quebec Bank Of \$1,500 And Are Later Apprehended

St. Anne Des Plaines, Que.—A posse of citizens pursued and captured two bandits who an hour before had held up the manager of the Banque Provinciale here and robbed the bank of \$1,500 after forcing him at the point of a gun to remove his trousers.

The two men entered the bank while R. Lavoie, the manager, was eating his lunch. They forced him to take off his trousers and open the safe. Removing \$1,500 in cash from the strong-box, they slugged Lavoie over the head, tied him up in the basement and escaped. Pursuers surrounded the fleeing men. The \$1,500 was recovered it was reported.

Recovers From Injuries

Boston, Ont.—Captain Errol Boyd, trans-Atlantic aeroplane pilot, was fully recovered from slight injuries received when his veteran aeroplane "Columbia" crashed a mile west of here. The Columbia, twice conqueror of the north Atlantic, was damaged to the extent of a broken propeller and crumpled left wing.

Fine Crop At Peace River

Edmonton, Alta.—One of the greatest crops in the Peace River area will be harvested this year according to Charles Frederick, editor of the Peace River Record. A long cold wet summer followed by most remarkable ripening weather, he said, would result in a record-breaking crop this season.

Ship Returns For Repairs

Bay Vessel Delayed Through Leak In Hull

Churchill, Man.—The leak in the hull of the S.S. Sierentz, drydock line, which necessitated the return of the ship to port, was caused by galvanic action, according to W. H. Harling, of Thomas Harling and Sons, shipping agents, Montreal.

The "Sierentz" departed from Churchill, bound for Europe with 265,000 bushels of grain. When the vessel was 60 miles northeast of Churchill, water started to pour into the engine room.

A survey of the ship disclosed a hole about an inch and a half in diameter in the bottom of the steel hull under the engine room. Repairs will be made here. It is not known how long the ship will be in port.

"It was purely a matter of corrosion, the action of water and air on metal," said Mr. Harling, agent for the owners. "It might have happened to any vessel anywhere." There was no ice in the region where the leak sprung.

Reduced Fare For Students

Railways Cut Rate For Those Attending Canadian Universities

Montreal, Quebec.—C. F. Riddell, chairman of the Canadian Passenger Association, announced that the Canadian railways propose establishing reduced fare arrangements for teachers and students attending universities located in Canada. Sale dates of tickets will be from Sept. 1 to Oct. 15 inclusive each year, and the fare will be one and one-third of the regular one-way first class fare.

The return limit will permit the purchaser to return home at the close of the term between May 1 and June 30 of the year following date of issue of ticket.

COMMUNISM IS NEWEST TROUBLE FOR CUBANS

Havana.—Soldiers and police were ordered on guard in the streets and parks of the capital after authorities received a report demonstrations were planned by Communists, the newest trouble of the new Cuban government.

The organization had been denied a permit to parade in observance of the execution of Nicola Sacco and Bartolomeo Vanzetti in the United States six years ago.

Speakers at Communist headquarters harangued an audience of negroes and whites, criticizing the provisional government of President Carlos Manuel De Cespedes, the A. B. C. Secret Society. "Yankee imperialism" and capitalism.

Referring to the overthrow 10 days ago, of the Gerardo Machado government, the speakers said: "The victory is not the A. B. C's. The victory is Labor's and the Communist party's."

Reports from eastern Cuba said United States Ambassador Sumner Welles' activities in mediation of the Cuban political situation were criticized in speeches and that President Carlos Manuel De Cespedes was attacked. Strikes have continued in that region. Employers blamed Communist influence.

CHINESE WAR LORD INSPECTS BRITISH AIRCRAFT

Marshal Chang Hsueh-Liang, the Chinese War Lord, now visiting England with his sons, paid a visit to the Royal Air Force Station at Hinton, Kent, to inspect aircraft and the establishment. He is shown here with folded arms, accompanied by his son (right), Wing Commander Wilcock (left), and Squadron Leader Crowe, watching an air display.

PLANS BETTER WHEAT

Details of an extensive program to improve western wheat crops and thereby raise the premium which Canada obtains on world markets for her grain have been revealed by Dr. L. H. Macdonald (above) Dominion cerealist. He is at present doing research work in Western Canada.

Gandhi Is Released

Nationalist Leader Breaks Fast With Orange Juice

Poona, India.—M. K. Gandhi was unconditionally released from custody by the authorities and shortly thereafter he broke a week's fast with a cup of orange juice.

The Nationalist leader had served only a little more than three weeks of a one-year prison sentence for initiating a new civil disobedience campaign against the government.

Gandhi was very weak and it was believed there were minor complications, but two Poona doctors who examined him said there was no cause for alarm over his condition.

(Gandhi was released from jail under similar circumstances last May 8.)

Gandhi was eating at the home of Lady Vitell das Thackersey, widow of a Bombay merchant, at Parnakut.

Relief Problem

Five Municipalities In Manitoba In Need Of Assistance

Ottawa, Ont.—Hon. E. A. McPherson, provincial treasurer of Manitoba, conferred here with department of labor officials on a program of relief for southwest Manitoba. An area 30 miles square, embracing five municipalities, was hit this summer for the third year by drought and grasshoppers, leaving hundreds of farmers destitute.

It was proposed by Manitoba the Dominion administrator the dried-out area through the Saskatchewan relief commission, the federal treasury paying the whole cost. No definite reply was made by Hon. Wesley Gordon, minister of labor, but it has been understood here for some time the Dominion has intended closing down the Saskatchewan commission.

Salute For Premier Forbes

Chicago.—A welcoming salute of 19 guns was fired as Prime Minister Forbes of New Zealand arrived in Chicago to visit the World's Fair. He was accompanied by Mrs. Forbes and a party of eight, en route home from the London Economic Conference. They came by way of Canada and will remain two days.

New Nova Scotia Cabinet

Personnel May Not Be Announced For Some Time

Halifax, N.S.—Although Angus L. Macdonald is not expected to announce the personnel of his new Liberal cabinet for about three weeks, many suggestions are going the rounds as a result of the party's 22 to 8 victory over the Conservative forces in the Nova Scotia elections.

The 48-year-old leader, to become Canada's youngest provincial premier, is expected to take the portfolio of provincial secretary-treasurer.

Dr. J. L. McLean, of Antigonish, and Dr. M. E. McGarry, of Inverness, both members of the last legislature, are mentioned for minister of health, and J. A. Macdonald, of Kings, is said to have been promised the portfolio of agriculture.

A. S. Macmillan, who held the highways portfolio in the Armstrong government previous to 1925, is expected to resume that assignment, and Michael Dwyer, Liberal, Cape Breton Centre, seems to be the favorite for minister of public works and mines. The post of attorney-general probably will be filled either by John S. Smiley, K.C. of Cumberland, or J. H. MacQuarrie, Pictou.

Have Right-Of-Way

Pedestrians In Vancouver Favored By Old Law

Vancouver, B.C.—Ordinary pedestrian or "jay-walker" has right-of-way in Vancouver over motor traffic at marked and unmarked points, at controlled or uncontrolled intersections, according to a decision in police court.

Traffic bylaws were designed to give the pedestrians right-of-way at marked intersections except those controlled by signals or police, but an old law prevents prosecution of the pedestrian or "jay-walker" no matter where or when he chooses to cross.

Percy C. Mumby, as the first motorist charged with failing to give right-of-way, was allowed to go with a warning after paying \$2.50 costs.

Conditions In Arctic Good

Major MacBrien States He Found Everything Quite Satisfactory

Ottawa, Ont.—Interviewed here on his return from Winnipeg after an 8,000-mile journey through the northwest which included visits to Great Bear Lake, the Copper Mine, Mackenzie River, Yukon Territory and Alaska, Major-General J. H. MacBrien, commissioner of the Royal Canadian Mounted Police, said he found conditions in the Arctic and sub-Arctic entirely satisfactory.

While at Shingle Point General MacBrien saw the reindeer herd awaiting resumption of its trek to Kittigazuit.

RECOVERY SIGNS ARE NOTED IN BANK REVIEW

Toronto, Ont.—Signs of recovery in Canada are stressed in the current monthly reviews of both the Bank of Nova Scotia and the Bank of Montreal, made public here.

"After a period of almost four years in which the patient chronicler of events has been obliged to record conditions of ever-increasing gloom," stated the Bank of Nova Scotia, "it is with relief that he is at length able to present the reader with the fact of a definite increase in business activity."

Similarly, the Bank of Montreal letter states: "The past month has seen, on the whole, the continuance of the favorable trend conspicuous since the spring; general business is now for the first time this year definitely above the level of the corresponding period of 1932 and this notwithstanding the decided check to the speculative upswing administered during July."

The Bank of Nova Scotia review considers the most significant feature the general rise in commodity prices, and the better equilibrium obtained as between the various groups of prices. "From a strictly Canadian viewpoint," the letter adds, "the better balance as between the prices of farm products and manufactured goods is especially important. It means, roughly, that what the farmer sells has a greater value in terms of what he buys than was the case say six months ago. This relative improvement should be a most significant and unfavorable effects of short grain crops in western Canada."

MANY LIVES ARE LOST IN STORM IN EASTERN U. S.

New York.—The toll of death and property damage piled to disastrous heights as the eastern shore of North America cleared away debris from its most terrific storm in years. Forty-two lives were lost. The destruction, impossible of approximate calculation in such widespread devastation, amounted into the many millions of dollars.

While the sun peeped through storm-blacked skies, many localities were still in distress from the gale and deluge that battered the Atlantic seaboard, then struck inland to churn Lake Ontario into angry moods.

In upstate New York, the Catskill mountain village of Fleischmanns breathed a bit freer as the water of Lake Switzerland slowly receded.

The coast guard—driven to exhaustion by long hours of heroic rescue work—kept to its vigil of aid for disabled craft.

The Chesapeake steamer "City of Norfolk," was aground in Pocomoke Sound, near Watts Island, after she was unheard from for many hours. A wireless message said the ship apparently was in no distress and the passengers were safe on board.

Striking at a time of harvest, much of the storm's irreparable damage was to crops.

In the severe lashing its famous shores has suffered for almost a week. New Jersey counted eight storm deaths; in Pennsylvania eight persons were drowned or killed; Virginia, its renowned resorts of Ocean View and Virginia Beach washed with destruction, tallied 10 deaths; in Maryland, its commercial lanes paralyzed, there were 11 deaths.

Two of the Virginia deaths were those of members of the crew of the old Dominion liner "Madison," washed overboard as the ship wallowed for hours in tremendous seas before she was able to plow back into Norfolk.

Father James Healey, a New York City Catholic priest, was drowned at Mount Tremper, in upstate New York, as he attempted to save three women and two children vacationists, marooned in flood waters.

Maryland's dead included two trainmen on the Crescent Limited of the Southern railway, which plunged off a flood-weakened bridge on Anacostia River, at the edge of the District of Columbia, injuring more than a dozen persons.

From North Carolina to New York "fresh to strong winds" were the weather man's prediction, but far from the unyielding intensity of the northeast and Caribbean hurricane that pounded the Atlantic's shore.

Moulding Public Opinion

Valuable Work Falling Within The Province Of Newspapers

Buff, Alberta.—Newspapers, it was indicated at a conference of the Institute of Pacific Relations, were the most powerful force in building and directing public opinion. Kindly views of the news policies of the leading papers of Great Britain, United States, New Zealand, Australia and Canada were offered in this connection.

Foreign News, especially that from United States, appearing in Japan and China was apt to be too highly seasoned, and, therefore, not interpretative of the spirit of the people of the country from which it came. Such news created false impressions where published and sometimes led to embarrassing incidents of national and international significance.

Dissemination of fair news throughout the world would aid in the formation of sound public opinion. Good government and friendly international understanding would follow, it was stated.

Russia's newspaper conditions were said to be deplorable. "What the press was controlled by the state in respect of what was published, while foreign correspondents' despatches were subjected to rigid and unfair censorship."

At another conference it was stated that munitions industries and financial interests might be responsible for undesirable nationalistic propaganda, setting one nation against another.

Movie Strike Called Off

Washington.—The United States labor board announced that the strike of movie picture artists had been called off and all striking employees would return to work immediately.

Local and General Items

The Editor will be pleased to receive items for this section, regarding visitors entertained, parties leaving for holidays or short trips, bridge parties, teas, etc. Phone items in to 11 or hand them in at The Enterprise office no later than Wednesday evenings.

George Lang was down from Creston last week end.

J. Flood has joined the staff of the Royal Bank at Bassano.

School reopened on Monday morning, with around ten beginners registering.

A Jew advertised: "If you find a watch, leave it with me. I'll find the owner."

Billie Royle says: "Peanuts are fattening. Just look at the elephants."

The Frank school has reopened for the fall term, with Mr. W. Drake as principal.

Mr. Totten is relieving Agent Passmore at the Blairmore station. Mr. Passmore is on vacation.

Two sons of Mr. Frank Weir, of Frank, and one of the Slopek boys, are up from the States on a visit to relatives.

Mr. Swann, of the department of municipal affairs, is in this district for a few days, accompanied by his son Leslie.

H. T. Halliwell, editor of the Coleman Journal, leaves on Monday next to attend the Canadian Weekly Press Association convention at Vancouver.

All the liquor control boards report loss of revenues. Dearth of money is doing yeoman service for temperance and total abstinence.—Col. Hugh Clark.

"If I were a retail merchant, I would be feeling very optimistic today," says Roger W. Babson. "Buy now, for prices are bound to go up," is his advice to housewives.

The marriage of Miss Winifred Gilhooley, of Calgary, to Cowan Lynn Oldfield, of Dundalk, Ontario, took place at Calgary on August the 26th. Mr. and Mrs. Oldfield will reside at Milo, Alberta.

Hon. W. L. Walsh, K.C., Lieutenant Governor of Alberta, will again open the Totem Pole Tournament at Jasper Park Lodge this year, accompanied by Lady Walsh, who will distribute the prizes to the winners.

Sixteen years ago, the Alberta government required that all vehicles going up or down hills should be preceded by a man on foot, and we remember when Jack McDonald, travelling all alone, stepped out of his Lizzie and led it down the old hill at Lundbreck.

Next week will be an entertaining one at the Orpheum. Opening Monday, the Schmeling-Baer fight pictures will be shown, with the feature "Luxury Liner," while beginning Thursday, Maurice Chevalier, supported by Baby LeRoy, Helen Twelvrees and Edward Everett Horton, will be seen in his litling and merriest picture, "A Bedtime Story."

Quite a number from the Pass towns went to Lethbridge yesterday to attend the funeral of Sergt. Blockside and Constable Farrell, who were killed in a car accident east of Macleod on Sunday morning. Mrs. Farrell was a cousin of Magistrate Gresham here, and had many times visited Blairmore. Farrell is survived by his wife and young son. Sergt. Blockside is also survived by a wife and son.

E. K. Stewart, of Fernie, was a visitor to Blairmore last week.

Lethbridge Elks will stage a carnival on September 7th, 8th and 9th.

It can easily be noticed that Blairmore has more than one brand of "scabs."

Local Chinaman: "Wha's a malla, him alla time come from good lady's loom?"

Frank Beebe and party enjoyed a milking bee near the South Fork on Sunday.

Mrs. R. K. Lillie has returned from a pleasant holiday visit to the Pacific coast.

W. A. Ross, of Fernie, has leased the Summit Inn at Crows' Nest and is moving his family there.

A son was born to Mr. and Mrs. Ross Powell, formerly of Coleman, at Calgary on August the 21st.

Harvey Murphy's dreams may be o.k., if they were not put into practice.

Dr. R. K. Lillie left Sunday on a visit to the World's Fair at Chicago. Doc went to Shelby, Montana, by car, proceeding by train from that point.

Rev. A. E. Larke and family returned the early part of the week from a month's vacation spent in camp at Kootenay Lake.

O. E. S. and Mrs. Whiteside, and daughter Adele, have returned to Coleman after holidaying for a month in Spokane and Hayden Lake.

Mr. Elmer McDougall, who has resided in Blairmore for close on a year, left by Tuesday's train for Regina, where he will again enter upon duties with the Mounted Police.

It is said that we are living in an age when the strongest voice, the loudest brag and the biggest brag commands the best audience. People in Blairmore have no reason to doubt this fact.

The village of LaFleche, Saskatchewan, is in dire straits, with no money in the bank, merchants unable to provide villagers with food on requisition from the village, so the matter has been referred to the provincial authorities.

Enid Cole Gurney, professional and experienced teacher of Dancing, Dramatics, Readings, Plays and Singing for Children, of Bellevue, has opened classes. She will also coach for festival competition. See her ad elsewhere in this issue.

A newspaper headline says "Discuss farmers' plight at Banff." No pleasanter place could be chosen for discussing plights, but what a pity the farmers themselves can't go to this beautiful resort to discuss their own plight in comfort.—High River Times.

The marriage of Margery Ellen, youngest daughter of Mr. and Mrs. Bell Hardy, to Maurice B., youngest son of Mr. and Mrs. T. J. Moore, took place at Calgary on August 26th, Saturday last. Mr. and Mrs. T. J. Moore were former residents of Frank.

A band of about fifty cows and calves at Sentinel are being cared for by a giant steer, that is said to weigh 2700 pounds. You should see him. He's so big, he couldn't enter a barn if he got down on his hands and knees. Really, he's too big for fish bait.

A band of newspaper editors and their lady attendants, from all points between Medicine Hat and Crows' Nest, will be passing through the Crows' Nest Pass during Sunday and Monday. As none of them are Communists, there will be no necessity of augmenting the local police forces.
